In Ministry

Summer is camp time for us here in Romania. As summer has drawn to a close, I want to share some of the highlights from camp as well as a couple other things that happened also.

While we do not directly run the ministry of Camp Hope we have been closely involved in camps there for many years. This summer we spent a good amount of time there. We directed two

weeks of camps and Lili and Ruthie spent another week working on the kitchen staff. We also recently finished a work week at camp with a team from the States. Our first week of camp was kids week, ages 8-12. We had over sixty campers, but with staff we were around ninety. We were excited to have a small missions team from Lighthouse Baptist Church in Walkersville, MD help us for this camp also. Miss Norma brought great crafts for the

kids and Brian and Jill were great helpers all week long. Teen camp was two weeks after our kids camp. We had a great group of leaders and teens for that week; six area pastors/missionaries were involved and we had around fifty campers. Both camps were great successes as several professions of faith were made and many more kids made decisions to seek a closer relationship with God. Most of our experience working at camp is running the activities

and program with the campers, but this summer we also spent a couple weeks doing other things. Lili and Ruth served on the kitchen staff during one of the weeks that the facilities were rented out to a different camp group. Both commented on the amount of work that the kitchen staff puts in behind the scenes so that the camps can be successful. Makes us all more appreciative of those who serve behind the scenes. We also had the pleasure of

hosting a work team this month. The main dormitory building at camp has been under renovations for
